CITY OF CYPRESS

5275 Orange Avenue Cypress, California 90630 (714) 229-6720

DESIGN REVIEW COMMITTEE PERMIT PROCESS

- 1. Discuss project with Planning staff to determine zoning regulations, any unusual characteristics of site and land use compatibility with surrounding properties.
- 2. Submit a Preliminary Project Review Application. <u>Preliminary Project Review approval</u> is required prior to submission of a formal application for a Major Design Review Permit.
- 3. Submit a formal Design Review Application. Include:
 - a. Completed application form.
 - b. Seven (7) copies of the site plan, elevation plan, grading plans, and floor plan; fully dimensioned, and one (1) complete set of reduced plans (11" x 17"). Elevation plans should be detailed to indicate type and color of building materials. Landscape and irrigation plans will be required prior to project completion.

Effective June 1, 2004 ALL applicants for any discretionary permit (Subdivision, CUP, Variance, Design Review, Staff Review, Zone Change, General Plan Amendment, etc.) are to provide ALL plans (Site Plans, Floor Plans and Elevations) on a CD in pdf format along with hard copy paper plans as listed above.

- c. Filing fee: Minor \$500.00 Minimum Fee/Actual Cost Major \$1,500.00 Minimum Fee/Actual Cost
- d. Environmental assessment fee. (City staff will prepare all necessary State required documents as a courtesy to the applicant.)

- 4. The plans will undergo complete analysis by staff to determine compliance with City Codes and the project's effect upon the community. An environmental study is prepared according to the requirements of the California Environmental Quality Act. The plans shall be revised as necessary by the applicant.
- 5. The project is presented directly to the Design Review Committee by staff in a staff-level meeting a minimum of three (3) weeks after the completed Design Review Permit application is submitted to the City. The Design Review Committee's decision on the project will be reported to the City Council at the next regular Council meeting following the date of the action by the Committee. Council certifies environmental status and takes action on project.
- 6. If the project is approved, a Notice of Determination for environmental impact is filed with the County Clerk along with your check made payable to the **County Clerk-Recorder** in the amount of \$1,250.00 for when a Negative Declaration will be filed or \$850.00 for when an Environmental Impact Report was prepared and certified for Fish and Game Fees. If a Notice of Categorical Exemption or Certificate of Fee Exemption (de minimis impact finding on a Negative Declaration or Environmental Impact Report) is filed, the Fish and Game Fees are \$43.00. A 15-day appeal period commences for the project, during which time the applicant must return a signed Agreement to Conditions of the Design Review Committee Permit as imposed by the City Council.
- 7. The applicant submits construction drawings to the Building Division of the Community Development Department.

CITY OF CYPRESS

5275 Orange Avenue Cypress, California 90630 (714) 229-6720

DESIGN REVIEW COMMITTEE PERMIT APPLICATION

Design review approvals of formal applications remain valid for a period of one (1) year. Upon acceptance by the City Council, the decision of the Design Review Committee shall be final unless an appeal to the City Council is filed prior to the next meeting following the filing of the application.

This is a Formal Design Review Application.

ENVIRONMENTAL INFORMATION FORM

(To Be Completed By Applicant)

Date Fil	ed
Genera	1 Information
1.	Name and address of developer or project sponsor:
2.	Address of project:
	Assessor's Block and Lot Number:
3.	Name, address, and telephone number of person to be contacted concerning this project:
4.	Indicate number of the permit application for the project to which this form pertains:
5.	List and describe any other related permits and other public approvals required for this project, including those required by City, Regional, State, and Federal agencies:
6.	Existing zoning district:
7.	Proposed use of site (Project for which this form is filed):
Pro	ject Description
8.	Site size:
9.	Square footage.
10.	Number of floors of construction.
11.	Amount of off-street parking provided.

12.	Attach plans.		
13.	Proposed scheduling.		
14.	Associated project.		
15.	Anticipated incremental development.		
16.	If residential, include the number of units, schedule of unit sizes, range of sarents, and type of household size expected.	le pric	es or
17.	If commercial, indicate the type, whether neighborhood, city or regionally orient footage of sales area, and loading facilities.	nted, so	quare
18.	If industrial, indicate type, estimated employment per shift, and loading facilities	i.	
19.	If institutional, indicate the major function, estimated employment per shift occupancy, loading facilities, and community benefits to be derived from the pre-		nated
20.	If the project involves a variance, conditional use or rezoning application, statindicate clearly why the application is required.	ite this	and
	the following items applicable to the project or its effects? Discuss below cked yes (attach additional sheets as necessary).	v all i	tems <u>No</u>
21.	Change in existing features of any bays, tidelands, beaches, lakes or hills, or substantial alteration of ground contours.		
22.	Change in scenic views or vistas from existing residential areas or public lands or roads.		
23.	Change in pattern, scale or character of general area of project.		
24.	Significant amounts of solid waste or litter.		
25.	Change in dust, ash, smoke, fumes or odors in vicinity		
26.	Change in ocean, bay, lake, stream, or ground water quality or quantity, or alteration of existing drainage patterns.		
27.	Substantial change in existing noise or vibration levels in the vicinity.		
28.	Site on filled land or on slope of ten percent (10%) or more.

NOTICE

Effective September 29, 2017 Orange County Fire Authority Fee Schedule Will Apply to the Following Planning Projects

Please check with a City project planner to determine whether these additional fees will apply to your Planning application. Fees due to the Orange County Fire Authority should be paid by a separate check made payable to "Orange County Fire Authority," and submitted along with your application to the City of Cypress.

PROJECT TYPE	FEE
Conditional Use Permit (C.U.P.), Design Review Committee	
(D.R.C.) or Preliminary Project Review (Code PR105)	\$387.00
Residential site review, access review for single-family home	
larger than 3,600 sq. ft. (Code PR160)	\$374.00
Parcel Map (Code PR110)	
	\$387.00
Tentative Tract Map (Code PR110)	
	\$387.00
Final Tract Map review (Code PR115)	
	\$244.00
CEQA (Notice of Preparation, EIR, and other environmental	
documents) - Projects with potentially significant fire impacts	\$387.00
(Code PR100)	

City of Cypress Water Quality Checklist for New Development and Significant Redevelopment Projects

Proj	ect Name:		_
Proje	ect Location:		_
Proje	ect Description:		
Pla	nning Priority Projects Subject to a WQMP	YES	NO
1.	New development projects that create 10,000 square feet or more of impervious surface. This category includes commercial, industrial, residential housing subdivisions, mixed-use, and public projects on private or public property that falls under the planning and building authority or the Permittees.		
2.	Automotive repair shops. This applies to facilities that are categorized in any one of the following Standard Industrial Classification (SIC) codes 5013, 5014, 5541, 7532-7534, and 7536-7539.		
3.	Restaurants where the land area of development is 5,000 square feet or more including parking area. This category is defined as facilities that sell prepared foods and drinks for consumption, including stationary lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption (SIC code 5812).		
4.	Impervious surface of 2,500 square feet or more located within, directly adjacent to (within 200 feet), or discharging directly into receiving waters within Environmentally Sensitive Areas (ESAs).		
5.	Parking lots 5,000 square feet or more including associated drive aisle, and potentially exposed to urban stormwater runoff. A parking lot is defined as a land area or facility for the temporary parking or storage of motor vehicles used personally, for business, or for commerce.		
6.	Streets, roads, highways, and freeways. This category includes any paved surface that is 5,000 square feet or greater used for the transportation of automobiles, trucks, motorcycles, and other vehicles. (See discussion under (Section 7.II-1.5 relative to public projects).		
7.	All significant redevelopment projects, where significant redevelopment is defined as the addition or replacement of 5,000 or more square feet of impervious surface on an already developed site. Redevelopment does not include routine maintenance activities that are conducted to maintain original line and grade, hydraulic capacity, original purpose of the facility, or emergency redevelopment activity required to protect public health and safety. If the redevelopment results in the addition or replacement of less than 50 percent of the impervious area on-site and the existing development was not subject to WQMP requirement, the numeric sizing criteria discussed in Section 7.II-2.0 only applies to the addition or replacement area. If the addition or replacement accounts for 50 percent or more of the impervious area, the Project WQMP requirements apply to the entire development.		

All development projects which do not fall under one of the Priority Planning Projects identified above, and which require discretionary approval by the Cypress Planning Division, shall be required to complete a Non-Priority Water Quality Management Plan Checklist.

Retail Gasoline Outlets (RGOs). This category includes RGOs that meet the following criteria: (a) 5,000 square feet or more, or (b) a projected Average Daily Traffic (ADT) of 100

or more vehicles per day.

Planning Priority Project If any question is answered "YES", the project is a planning priority

project subject to the Development Planning Program of the LIP and will require post development storm water quality mitigation, either

WQMP or site-specific.

Planning Exempt Project If every question is answered "No", the project is exempt from the

Development Planning program but must still submit the "Owner's Certification of Compliance with Minimum Requirements" and comply with

construction requirements.

One Acre or Greater Project If the project is one acre or greater, the project is subject to the General

Construction Permit, requiring a NOI, SWPPP and "Owner's Certification of

Compliance.

"Best Management Practice (BMP)" means methods, measures, or practices designed and selected to reduce or eliminate the discharge of pollutants to surface waters from point and nonpoint source discharges including storm water. BMPs include structural and non structural controls, and operation and maintenance procedures, which can be applied before, during, and/or after pollution producing activities.

"Hillside" means property located in an area with known erosive soil conditions, where the development contemplates grading on any natural slope that is twenty-five percent (25%) or greater.

"Numerical Design Criteria – For information regarding numerical design criteria, refer to the 4th term Permit Technical Guidance Document, which can be found on the Orange County's Watershed website at: http://www.ocwatersheds.com/.

Redevelopment' means (a) land-disturbing activity that results in the creation, addition, or replacement of 5,000 square feet or more of impervious surface area on an already developed site. Where Redevelopment results in an alteration to **more than 50%** of impervious surfaces of a previously existing development, and the existing development was not subject to post development storm water quality control requirements, the entire project must be mitigated. Where Redevelopment results in an alteration to **less than 50%** of impervious surfaces of a previously existing development, and the existing development was not subject to post development storm water quality control requirements, the alteration must be mitigated, but not the entire development (b) Redevelopment does not include routine maintenance to maintain original line and grade, hydraulic capacity, or original purpose of a facility, nor does it include emergency construction activities required to immediately protect public health and safety.
