

CITY OF CYPRESS

5275 Orange Avenue
Cypress, California 90630

APPLICATION REQUIREMENTS FOR TENTATIVE TRACT MAP

TENTATIVE TRACT MAP PREPARATION

1. Tentative maps shall be prepared by or under the direction of a registered Civil Engineer or a licensed land surveyor.
2. Each tentative map shall clearly show the details of the plan thereon. Whenever practicable, map sheets should be no less than 18" x 26". In no case shall the scale be less than one inch (1") to one hundred feet (100').
3. The Community Development Director, prior to accepting an application for any tentative map approval, shall determine the type of environmental impact statement to be required.
4. Tentative tract maps shall be prepared in accordance with the State of California Subdivision Map Act.

REQUIREMENTS

The attached completed application shall be accompanied by the following:

1. A minimum fee of **\$1,600.00** and actual cost thereafter, payable to the City of Cypress.
2. Environmental assessment fee. (City staff will prepare all necessary State required documents as a courtesy to the applicant.)

Categorical Exemption	\$100.00 Minimum Fee/Actual Cost
Negative Declaration	\$350.00 Minimum Fee/Actual Cost
Mitigated Negative Declaration	\$600.00 Minimum Fee/Actual Cost

3. Ten (10) full-size copies and one (1) 11" x 17" reduced copy of the tentative map clearly indicating the following information:
 - a. Tract number assigned by the County Surveyor.
 - b. The name, address, and phone number of the owner or owners whose property is proposed to be subdivided; and the name, address, and phone number of the registered civil engineer, licensed surveyor, architect or other person who prepared the map.
 - c. North point, scale, and date of preparation of the tentative map.

- d. Boundary lines.
- e. The locations, width, approximate grade, center line radii, and proposed names of all streets within the boundaries of proposed subdivision, and the location and width of proposed alleys and/or public service easements.
- f. Name, location and width of each adjacent street.
- g. Lot number, lot lines and dimensions of each lot, and drainage direction of each lot.
- h. Approximate location and width of watercourses or areas subject to inundation from floods, and the location of structures, irrigation ditches, railroads and other permanent physical features.
- i. Description of the exterior boundaries of the subdivision or legal description of the property comprising the subdivisions.
- j. Width and location of all existing or proposed public or private easements.
- k. Classification of lots as to intended residential, commercial, industrial or other uses.
- l. Proposed location, direction of flow, and disposal point for storm drains and appurtenant structures.
- m. Proposed location, size, direction of flow, and disposal point for sanitary facilities.
- n. Contours, street profile and cross sections, together with the location of all cut and fill slopes or a separate tentative grading plan, if necessary in the opinion of the Director of Public Works.

Discretionary permit application and plans must be submitted concurrently with the map application (CUP, Variance, Design Review, Staff Review, Zone Change, General Plan Amendment, etc.) if applicable.

- 4. A 500-foot radius map containing all property owners within 500 feet of the exterior boundaries of the subject property.
- 5. **Two (2)** sets of gummed mailing labels, plus **two (2) copies** containing the names and addresses of all property owners located within 300 feet of the exterior boundaries of the subject property.
- 6. If the project is approved, the applicable environmental determination forms will be filed with the County Clerk along with your check made payable to the **County Clerk-Recorder** in the appropriate amount for Fish and Game fees. Environmental documents requiring Fish and Game fees include: a Notice of Categorical Exemption, a Certificate of Fee Exemption (de minimis impact finding), a Negative Declaration, or an Environmental Impact Report. Refer to the attached memorandum for the current list of Fish and Game

fees and filing fees due to the County Clerk for the various types of environmental determination forms. A 15-day appeal period commences for the project, during which time the applicant must return a signed Agreement to Conditions of the Tentative Parcel Map as imposed by the City Council.

7. **A copy of the property title report shall be submitted with this application.**

SUPPLEMENTAL INFORMATION

The tentative map shall show thereon or be accompanied by reports and written statements from the subdivider giving essential information regarding the following matters:

1. Source of water supply.
2. Type of street improvement and utilities which the subdivider proposes to install.
3. Protective covenants to be recorded.
4. Such other information as may be deemed necessary by the Public Works Director or Community Development Director.

Orange County Fire Authority Fee Schedule
Will Apply to the Following Planning Projects**

Please check with a City project planner to determine whether these additional fees will apply to your Planning application. Fees due to the Orange County Fire Authority should be paid by a separate check made payable to “*Orange County Fire Authority*,” and submitted along with your application to the City of Cypress.

PROJECT TYPE	FEE
Conditional Use Permit (C.U.P.), Design Review Committee (D.R.C.) or Preliminary Project Review (Code PR105)	\$387.00
Residential site review, access review for single-family home larger than 3,600 sq. ft. (Code PR160)	\$374.00
Parcel Map (Code PR110)	\$387.00
Tentative Tract Map (Code PR110)	\$387.00
Final Tract Map review (Code PR115)	\$244.00
CEQA (Notice of Preparation, EIR, and other environmental documents) – Projects with potentially significant fire impacts (Code PR100)	\$387.00

City of Cypress Water Quality Checklist for New Development and Significant Redevelopment Projects

Project Name: _____

Project Location: _____

Project Description: _____

Planning Priority Projects Subject to a WQMP	YES	NO
1. New development projects that create 10,000 square feet or more of impervious surface. This category includes commercial, industrial, residential housing subdivisions, mixed-use, and public projects on private or public property that falls under the planning and building authority or the Permittees.		
2. Automotive repair shops. This applies to facilities that are categorized in any one of the following Standard Industrial Classification (SIC) codes 5013, 5014, 5541, 7532-7534, and 7536-7539.		
3. Restaurants where the land area of development is 5,000 square feet or more including parking area. This category is defined as facilities that sell prepared foods and drinks for consumption, including stationary lunch counters and refreshment stands selling prepared foods and drinks for immediate consumption (SIC code 5812).		
4. Impervious surface of 2,500 square feet or more located within, directly adjacent to (within 200 feet), or discharging directly into receiving waters within Environmentally Sensitive Areas (ESAs).		
5. Parking lots 5,000 square feet or more including associated drive aisle, and potentially exposed to urban stormwater runoff. A parking lot is defined as a land area or facility for the temporary parking or storage of motor vehicles used personally, for business, or for commerce.		
6. Streets, roads, highways, and freeways. This category includes any paved surface that is 5,000 square feet or greater used for the transportation of automobiles, trucks, motorcycles, and other vehicles. (See discussion under (Section 7.II-1.5 relative to public projects).		
7. All significant redevelopment projects, where significant redevelopment is defined as the addition or replacement of 5,000 or more square feet of impervious surface on an already developed site. Redevelopment does not include routine maintenance activities that are conducted to maintain original line and grade, hydraulic capacity, original purpose of the facility, or emergency redevelopment activity required to protect public health and safety. If the redevelopment results in the addition or replacement of less than 50 percent of the impervious area on-site and the existing development was not subject to WQMP requirement, the numeric sizing criteria discussed in Section 7.II-2.0 only applies to the addition or replacement area. If the addition or replacement accounts for 50 percent or more of the impervious area, the Project WQMP requirements apply to the entire development.		
8. Retail Gasoline Outlets (RGOs). This category includes RGOs that meet the following criteria: (a) 5,000 square feet or more, or (b) a projected Average Daily Traffic (ADT) of 100 or more vehicles per day.		

All development projects which do not fall under one of the Priority Planning Projects identified above, and which require discretionary approval by the Cypress Planning Division, shall be required to complete a Non-Priority Water Quality Management Plan Checklist.

Planning Priority Project If any question is answered "YES", the project is a planning priority project subject to the Development Planning Program of the LIP and will require post development storm water quality mitigation, either WQMP or site-specific.

Planning Exempt Project If every question is answered "No", the project is exempt from the Development Planning program but must still submit the "Owner's Certification of Compliance with Minimum Requirements" and comply with construction requirements.

One Acre or Greater Project If the project is one acre or greater, the project is subject to the General Construction Permit, requiring a NOI, SWPPP and "Owner's Certification of Compliance.

"Best Management Practice (BMP)" means methods, measures, or practices designed and selected to reduce or eliminate the discharge of pollutants to surface waters from point and nonpoint source discharges including storm water. BMPs include structural and non structural controls, and operation and maintenance procedures, which can be applied before, during, and/or after pollution producing activities.

"Hillside" means property located in an area with known erosive soil conditions, where the development contemplates grading on any natural slope that is twenty-five percent (25%) or greater.

"Numerical Design Criteria – For information regarding numerical design criteria, refer to the 4th term Permit Technical Guidance Document, which can be found on the Orange County's Watershed website at: <http://www.ocwatersheds.com/>.

Redevelopment" means (a) land-disturbing activity that results in the creation, addition, or replacement of 5,000 square feet or more of impervious surface area on an already developed site. Where Redevelopment results in an alteration to **more than 50%** of impervious surfaces of a previously existing development, and the existing development was not subject to post development storm water quality control requirements, the entire project must be mitigated. Where Redevelopment results in an alteration to **less than 50%** of impervious surfaces of a previously existing development, and the existing development was not subject to post development storm water quality control requirements, the alteration must be mitigated, but not the entire development (b) Redevelopment does not include routine maintenance to maintain original line and grade, hydraulic capacity, or original purpose of a facility, nor does it include emergency construction activities required to immediately protect public health and safety.
