## Intro to Coding with Scratch 3 and LEGO®

Most kids love to play video games, watch animations, and build with LEGO® Bricks. But what if you could combine all that with learning how to control the action yourself, by learning how to code your own games, animations, and build LEGO® Models! Kids will spend time on computers and tablets, but no, we don't expect them to sit in front of a device for 3 hours! We swap activities about every 20 minutes so that kids are getting up, stretching, and doing creative building activities, mixed in with learning how to code. Campers should already have good reading skills. Each camper receives a customized mini-figure on the last day of camp. Please bring a snack and drink.
